# Project Management Services

THE BRAUMILLER GROUP  
GLOBAL TRADE LAW & CONSULTING

# Today's Trade Environment Is Increasingly Complex

Complex trade challenges require coordinated execution.

## Regulatory Change

Tariffs, customs requirements, trade agreements and evolving regulations

## Cross-Functional Teams

Trade, supply chain, procurement, finance, IT, legal and operations

## Technology & Data

ERP, GTM, customs software and other technology platforms

## Global Stakeholders

Internal teams, brokers, vendors, advisors and agencies

## Time-Sensitive Decisions

Implementation deadlines, business changes and regulatory requirements

# The Execution Gap

Strategy is only the beginning. Execution is where complexity compounds.

Outcomes & ownership

Structured to provide control. In-Depth to solve problems. Flexible to fit your organization.

# Governance That Keeps Projects Moving

All governance flows through the Braumiller PMO – the central coordination point connecting every stakeholder and workflow.

# What Clients Receive

## PROJECT CONTROL

- Defined scope and objectives
- Integrated project roadmap
- Milestones and deliverables
- Roles and responsibilities
- Dependency management
- Risk and issue tracking

## EXECUTIVE VISIBILITY

- Regular status reporting
- Decision tracking
- Escalation management
- Performance monitoring
- Clear accountability
- Implementation transparency

**Fewer surprises • Clearer accountability • Greater visibility**

# A Typical Client Engagement

## 01 – THE CHALLENGE

A multinational organization faces tariff and regulatory changes affecting sourcing, customs processes and business operations.

Multiple teams must respond simultaneously.

## 02 – THE BRAUMILLER APPROACH

- Establish executive governance
- Build integrated roadmap
- Coordinate cross-functional workstreams
- Manage risks & issues
- Track regulatory requirements
- Provide executive reporting

## 03 – THE OUTCOME

Coordinated implementation with:

- Clear ownership
- Defined milestones
- Cross-workstream visibility
- Structured decision-making
- Sustainable transition

**Project Management provides the connective tissue between strategy and sustainable execution.**

# Flexible Engagement Options

## PROJECT LEADERSHIP

Dedicated leadership for defined initiatives

## PMO SUPPORT

Structure, reporting and governance for complex programs

## EMBEDDED PROJECT MANAGER

Additional project leadership capacity within the client's team

## PROJECT RECOVERY

Assessment, prioritization and a path to get an initiative back on track

## WORKSTREAM LEADERSHIP

Specialized trade leadership within a larger enterprise program

# Why Braumiller?

## TRADE EXPERTISE

Deep knowledge of customs, tariffs and international trade

## CROSS-FUNCTIONAL PERSPECTIVE

Connecting trade requirements with business operations

## GLOBAL EXPERIENCE

Coordinating complex initiatives across markets and stakeholders

## PROJECT DISCIPLINE

Structured planning, governance, execution and reporting

**Project Management provides the connective tissue between strategy and sustainable execution.**

# Have a complex trade initiative that needs to move from strategy to execution?
